**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claims 1-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 1, applicant has amended the claim to include the language, "removing said plastic film from said plastic tag blank after said applying heat." Support for this language could not be found in the specification.

***Allowable Subject Matter***

2. Claims 1-8 would be allowable if the above mentioned new matter is deleted and replaced with the language, --melting an amount of said plastic tag's material such that it is trapped by said plastic film and dispersing said material over the surface of the tag including the portion of the tag printed with said indicia.--

3. Claims 1-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.

***Response to Arguments***

4. Unless applicant can show that the language added to claim 1 is not new matter, the claims cannot be allowed in their current form. The suggested language above, taken from the second full paragraph of page 8, of applicant's specification would put the claims in condition for allowance.
